

Connecting financial statements, operational reality, and investment judgment.

CANDIDATE PROFILE

U.S. Army veteran and finance professional with experience across accounting support, mission-critical operations, and investment research. Brings an operator's perspective to valuation, financial analysis, controls, and decision-making.

EXPERIENCE

Finance Assistant

Accrual accounting, reconciliations, reporting, board materials, audit trails, and financial record support.

Data Center Operations

5+ years supporting mission-critical infrastructure, controls, documentation, service continuity, and customer operations.

U.S. Army

Logistics and financial management supporting more than \$10M in operational expenditures.

EDUCATION

B.S. Finance - San Diego State University, expected 2027

A.S. Business Administration - San Diego Miramar College, 2024

ADVANCED FINANCE COURSEWORK

Aztec Investment Fund - Equity Research & Portfolio Management

CORE TOOLS

Excel | Financial modeling | QuickBooks Online | Bloomberg Market Concepts | Portfolio analytics | Transaction analytics

RESEARCH & ANALYSIS APPROACH

- Fundamentals and valuation
- Industry structure and competitive positioning
- Institutional behavior and technical structure
- Explicit risk rules and thesis updates

SELECTED PROOF OF WORK

- Company research pages and transparent valuation models
- Documented portfolio methodology and mistake-journal process
- Luna1 Transaction Intelligence: upload, analyze, flag discrepancies, and export financial records

PLATFORM DEVELOPMENT

Building Luna1 as a practical finance portfolio that connects equity research, valuation, accounting controls, transaction-level analysis, and recruiter-ready proof of work.

INVESTMENT PHILOSOPHY

I treat each investment thesis as a working hypothesis, updating the view as financial results, industry conditions, valuation, and risk factors change.
