PROFESSIONAL EXPERIENCE

Coronado Historical Association — Coronado, CA
Executive & Finance Assistant

May 2026 – Present

- Support accrual-based accounting operations in QuickBooks Online, including transaction recording, journal entries, bill processing, and monthly reconciliations.
- Prepare financial reports, supporting schedules, and Board materials to assist executive leadership with budgeting, planning, and decision-making.
- Maintain accurate audit trails, organize financial documentation, and support compliance with nonprofit accounting standards for restricted and unrestricted funds.

Lightedge Solutions — San Diego, CA
Data Center Network Operations Technician

Nov 2020 – Present

- Supported daily data center operations by monitoring infrastructure activity, coordinating service requests, and maintaining accurate documentation across network and facility systems.
- Assisted with cloud and colocation environment support, including customer equipment tracking, access coordination, ticket updates, and operational issue resolution.
- Maintained project and operational records for equipment installs, removals, migrations, maintenance activities, asset records, and work orders to support compliance and audit readiness.
- Coordinated with network, facilities, security, and customer support teams to resolve discrepancies, support project workflows, communicate status updates, and maintain service continuity.

United States Army — Fort Campbell, KY
Supply Specialist

Nov 2015 – May 2019

- Coordinated fuel supply operations supporting aviation and ground missions, ensuring timely distribution of petroleum products to maintain operational readiness.
- Managed inventory tracking, storage, accountability, and documentation for bulk petroleum products, equipment, and mission-critical supplies across daily logistics operations.
- Supported operations planning by coordinating fuel deliveries, equipment movement, supply requests, and aviation support documentation.

Financial Management Technician

- Assisted with tracking and reporting of \$10M+ in operational expenditures supporting unit financial operations.
- Maintained financial records, processed transactions, and ensured proper documentation for reporting and compliance
- Supported reconciliation of financial transactions and assisted with tracking expenses and budgets
- Prepared financial reports and assisted leadership with budgeting and cost monitoring.

Wilgus Associates — Bethany Beach, DE
Junior Reconciliation Accountant

Jun 2014 – Jul 2015

- Maintained ledger accounts, processed transactions, and performed bank reconciliations to ensure accuracy
- Investigated discrepancies between financial reports and supporting documentation.
- Assisted with month-end close, including reconciliation documentation and reporting support
- Implemented automated reconciliation processes that reduced reconciliation time by 50%.

Organizations:

Aztec Investment Fund (AIF) — Conduct fundamental equity research and develop investment theses across financial performance, valuation, and industry trends; presented an AI infrastructure thesis leveraging 5+ years of data center operations experience to identify investment opportunities across the AI compute and infrastructure value chain.
